

Table 29

Formations and Numbers in the Field in the Army of the Republic, 15 January to 15 February 1920

Support weapons are given in the order: armoured trains / armoured cars / planes / balloons

Only data on operational Red Army units are included.

Names and numbers of the units, which were part of the formations are omitted.

The table contains information received by the RSFSR Field Staff and Front Staffs respectively from the headquarters of the independent Armies and Armies dated:

- 6th Independent Army as of 15 January
- Western Front as of 15 February (command and horses for the Latvian division as of 1 January)
- South-Western Front as of 15 January (command and horses for the 57th Division as of 1 January)
- Caucasian Front as of 1 February (total men and horses for the 23rd Division as of 15 January)
- Turkestan Front as of 15 January and 1 February
- 5th Independent Army as of 15 January and 1 February

Errors of calculation were corrected from the original data. Some data is patched in from other sources or back-calculated from totals (marked with [] in the original).

Because of lack of information in some documents the overall totals for combat troops of the active Army for command personnel, armoured trains, armoured vehicles, aircraft and balloons could not be calculated.
